Reflecting on a Memorable Year

2024, a year to remember...

Bro. Demetrius Dillard
TOG Times Staff Writer
Baltimore Temple

2024 will be a year to remember for many reasons.

This year was characterized by adversity for some, while others experienced good favor. Some dealt with uncertainty and challenges, while others saw miraculous breakthroughs. Some saints passed from time to eternity, and many new followers have joined the fold.

But as the adversary intensifies his attack on the Truth of God, the church has continued to expand by God's grace. Thousands were baptized in the name of Jesus Christ, and many received the Holy Ghost in 2024.

Also, the Lord has been good to His people through sorrow, gladness, failures, and victories. This year, many Truth of God followers – and even opposers – have witnessed the hand of God mightily.

“We thank God for all of these milestones, and God alone has made it possible,” Elder Dan Thompson remarked, during the 2024 Youth Convocation in March. “We praise and thank our God.”

A year of milestones

This year was particularly special as Pastor Gino Jennings celebrated his 40th pastoral anniversary, an admirable milestone he has taken with humility and gratitude.

Not often do religious leaders achieve 40 years of ministry with ongoing

over a sustained period as Pastor Jennings has. This 40-year achievement, and the millions of souls who have been impacted by the Truth of God program, has fulfilled only a segment of the divine vision he received many years ago.

Reaching this 40-year mark didn't come easy by any means.

To an extent, Jennings can identify with various men of God in the Scriptures who endured the afflictions of the gospel. So, while this achievement is significant, it came through many tears, suffering, and sacrifices – a lot of which was chronicled in the Truth of God documentary released earlier in the year.

“I've been traveling the world consistently for 40 years,” Jennings once said.

“Forty years traveling through all these time zones. Getting sick. Preaching when my body is supposed to be on sleep time. Going two and three days without sleep and preaching because my body cannot adapt to the time.”

In four decades, the Lord has used Pastor Jennings and the Truth of God program to reach millions around the globe, and the vision continues to unfold.

At the tender age of 21, Jennings took a courageous step into what many would consider risky waters, pioneering what would become one of the most influential religious programs in modern history.

From the time the man of God heard a voice from heaven instructing him to “come out from amongst them and be ye separate,” he hasn't looked back.

“Forty years is a long time but it went by fast. And truly, as the minister from Birmingham, England said, this is the Lord's doing,” Jennings said on the opening night of the 2024 International Holy Convocation.

“Many were told about this years ago, and to see it transform right in your eyes is a wonderful thing. If the Lord don't give you the assignment to do his work, it is nothing to play with. But if the thing is of God, then God will stand behind it. And we can say of a truth, the Lord is truly standing behind the Truth of God.”

Marked by a consistent travel schedule that was perhaps the busiest since before the COVID-19 pandemic, this year took Jennings to several locations globally. Saints and ministers throughout First Church joined Pastor Jennings in supporting this 40-year celebration, attending services held throughout the United States, Canada, Europe, Africa, and elsewhere.

Covering a range of biblical topics, Pastor Jennings boldly delivered God's word, warning, encouraging, and exhorting all who desire to hear. Everywhere the man of God stepped foot, he made sure the people were edified and well-nourished by the word of the Lord.

After winding down from the End-of-Year Convocation to conclude 2023, Jennings kicked off the year in the nation's capital on March 9-10.

From there, he made stops in a number of locations in the US, Africa, Europe, and the Caribbean.

** All schedule dates/ times are subject to change, also there may be unannounced visits to branch locations by Pastor Jennings **

According to the latest calendar of events, Pastor Jennings is scheduled to go to Auckland, New Zealand, and Sydney, Australia before returning home for the End-of-Year Convocation at the Philadelphia Headquarters from Dec. 26-29. These dates and times do not include the numerous business meetings and walk-throughs led by the Pastor.

Although Jennings points out the challenges of traveling the globe and preaching the gospel, he often acknowledges the rewarding experience of seeing souls come to repentance.

“When God opens up the door for you to preach the gospel around the world, the experiences that you will encounter – you’ll have a better appreciation for the truth of the gospel,” Pastor Jennings said.

Truth of God train in Jamaica

The saints in Jamaica had just wrapped up their quarterly Week of Fasting and Prayer and the administering of the Lord’s Supper in various locations on the island when Pastor Jennings arrived for the 2024 Convocation.

“Greetings, brothers and sisters! We thank God to be back in Jamaica again,” he said, greeting the saints on the second day of the Convocation. He also expressed gratitude for the opportunity to attend this year’s convocation, reflecting on the previous year when he was unable to participate due to a health-related incident.

Jennings continued by thanking God for the strength to be present and shared his joy at witnessing the continued growth of the church in Jamaica, tracing the journey back to his experience of being invited to preach in Jamaica for the first time by Elder Banton, who also attended this year’s Convocation.

Throughout the convocation, the vibrant culture of Jamaica and its neighboring Islands was beautifully showcased. Saints were treated to a nightly program featuring original songs composed by local members, a powerful poem celebrating the beauty of Holiness, and heartfelt testimonies from saints who shared their journeys of being delivered from falsehood and embraced by the Truth of God family.

Each evening, following the program, Jennings delivered the Word of God, encouraging and exhorting all in attendance to strive for holiness in their daily lives. “Which one in the building right now loves someone enough that

they will lay down their life for him or her?” Jennings asked, challenging the saints to love one another fervently.

“As the church, we have so much to come up to,” he added.

To watch the services from this year’s Jamaica Holy Convocation, visit the First Church Truth of God YouTube channel and view program numbers 1953–1954 and 1955–1956.

“Write The Vision”

The First Church Truth of God Broadcast officially released the highly anticipated documentary titled “Write The Vision” on Aug. 6, 2024. The nearly seven-hour-long film was a major highlight of Pastor Jennings’ 40th anniversary celebration.

Along with acknowledging the 40th pastoral anniversary, “Write The Vision” was also dedicated to the many brothers and sisters, deceased and alive, who have worked faithfully with Jennings from the beginning of his ministry until now.

Narrated by Brother Tyrone Rawlings and Elder Dan Thompson, the documentary dives deep into several experiences that Pastor Jennings and First Church members endured since the start of this remarkable work.

Viewers got an exclusive look at old services, choir presentations, youth programs, heated discussions with other preachers – and much more – from the basement to Briar Road, 24th Street, Frankford Avenue, Lindley and 5th, and various locations around the world.

It opened with a segment depicting a young, vibrant Jennings preaching in Portsmouth, Va., giving viewers a glimpse of the early stages of his ministry. The documentary also details how the Truth of God program evolved, weathered storms, overcame obstacles, and prevailed in the face of adversity by the grace of God.

The documentary was received favorably by Truth of God followers, many of whom left reflections in the comment section of the YouTube video, and others left reviews on their personal social media pages.

“The story of most men’s lives will go untold, but when it becomes clear that a true servant of the Lord has arisen, that story becomes compelling and must be

told,” Elder Dan said in the film’s opening segment.

“This documentary is dedicated to the glory of God. It is intended to show the blessings of the Lord toward the First Church of our Lord Jesus Christ., Inc. and the life of Pastor Gino Jennings. By this, we believe that those who shall come after us will see and know the blessings of the Lord Jesus toward us in our day. We bless the name of our God.”

Mighty long way, Lord

As 2024 draws to an end, the Truth of God Newsletter and Holy Times Magazine join Pastor Jennings and all the saints in reflecting on a landmark year. While learning from all the experiences it came with, we are grateful to the Lord for what He has in store for His church.

The Lord has brought us from a mighty long way, and we pray to continue in Him, all the days of our lives.

Orlando Florida Temple

Florida Temple

The Truth of God expansion continues with a newly purchased 7140-square-foot temple in a small, quaint town called Eustis outside Orlando, Florida.

The temple is located on a busy street for all to see. The campus has plenty of greenery and parking. The main sanctuary has upper and lower levels. The rest of the building features a baptism pool, a kitchen, a nursery, an outdoor playground, administrative offices, and more.

For many of the saints in Central Florida, having their place of worship has been a long-awaited prayer that's finally come to fruition. "I'm so glad and so happy – this is truly a blessing from the Lord," Minister Emmanuel Manosalvas said. "We've been working, laboring, and praying, and God Almighty has answered our prayers."

Humble Beginnings

Ten years ago, the Truth of God train officially rolled into Central Florida, with the first service held at Minister Manosalvas' home. "Back in 2014, Minister Abraham [Aviles] preached at my house," he said as he reminisced. "Since then, we have held services at multiple rental areas throughout Central Florida and Orlando."

However, renting service spaces presented challenges for the congregation, with one location complaining about the noise level of services.

"At the Renaissance Hotel location, we received noise complaints in reference to our praise and testimony portion of services. Those in charge asked us to be considerate of others renting spaces next door," Minister Manosalvas said. "Having our own temple will allow for privacy and alleviate any noise concerns."

Despite the challenges, the Truth of God train never wavered. Services continued, and souls continued to be baptized in The Name of Jesus Christ.

One of those souls was Sister Dahlia McDonald, who learned about the Truth of God in January of 2023 after overhearing her mother listening to Pastor Gino Jennings on YouTube. "She was listening to Pastor Jennings, and I was listening to my brother preaching. He's a pastor – well, so he says," said Sister McDonald. "While Pastor was preaching, I heard [he said], 'If you are not a whore don't look like one.' I turned to my mom and asked her why she was listening to a man who kept calling women whores. Then, I removed myself from there."

Sister McDonald went on to say that her mother had shared scripture with her before this encounter about divorce being wrong. However, she couldn't understand what she was reading at the time.

"After I got up from beside my mom that day, I went to bed, and Pastor came to my mind three times," she said. "I got up, grabbed my phone, and put in 'Geno Jenkins.' The first message was about marriage, divorce, and having a child by another man. My heart was shattered. I started crying and repenting; the same question I had been asking for so long was answered that night."

Shortly afterward, Sister McDonald called headquarters and received information about the Orlando temple. She was baptized on February 5, 2023, and has attended available services in Orlando since then. When there isn't service, she tunes into the live broadcast on YouTube, Zoom, or theTOG.tv.

Today, Sister McDonald is among the many local saints looking forward to worshipping at the new temple. "It feels really great having our own temple. It's so much joy within," she said. "Having our own place to worship, we don't have to hurry up to get out of there. We don't have anyone to tell us we are too loud; we need to keep it down. We can have all-night prayers – it's just amazing."

A New Chapter Begins: First Church Announces New Temple in 'America's Hometown'

A New Chapter Begins

Eager to begin services at the new location, the local Truth of God family has been actively involved in preparing the temple for worship. Their dedication and hard work throughout the week and on weekends testify to their commitment to the Truth of God.

“Within the brothers, landscaping has been set for them to work every week until October,” Minister Manosalvas said. “Brothers put in work throughout the week in the afternoon after they get off work. On Saturdays, they arrive at around 7 a.m. to work.”

On the exterior of the building, the brothers have cut shrubbery, trimmed trees, cut dead branches, and pressure-washed all three buildings and floors. Inside the building, the brothers have ripped out the carpet in the main sanctuary, gutted bathrooms, cleaned common areas and rooms, removed walls, fixed plumbing throughout the building, and so much more.

As the work continues at full steam, local saints like Sister McDonald are filled with anticipation for the many blessings that await them at their new place of worship. This sense of excitement and hope is palpable as we look forward to the new chapter that is about to begin.

“The thing I look forward to the most is the spirit of Jesus Christ, who is God Almighty, dwelling in and filling that temple and souls, like me, who are tarrying for his spirit be filled.”

Testimony of Mother Palin

Giving the highest honor to our Lord and Savior, Jesus Christ. Double honor to the apostles and prophets of old and to our present-day Apostle, Pastor Gino Jennings.

I thank and praise God for the day I met Mother Josephine Jennings in 1979 at Sears and Roebuck where we both worked. I had never seen her before. I had prayed and asked God to send me and my children to the right Church where we could serve him.

I had been to some churches, but I knew they weren't true churches of God. So, she handed me a flyer inviting me to hear her son preach at a revival. I took the flyer and thanked her. She also told me later that I was the only person in Sears that she gave a flyer to.

So, my two children, Leon and Nicole, and I went. I knew this was the right place. There were so many young people there and I knew they were filled with the right Spirit of God, so we kept going.

I got baptized and I started tarrying for the Holy Ghost. Although it took me a year and a half, I got down to business because I wanted the real Holy Ghost from God. Mother Jennings and Sister McCalily tarried with me also.

I started stammering. I wondered if it was the real Holy Ghost or not, so I prayed and asked God, "Do I have the real Holy Ghost or not?" So, I went to service on a Tuesday night in 1981; we had prayer and then Evang. Jennings got up to preach.

He called me up to the front of the Church. I was wondering why, but I went up there.

He asked me if I believed in God, and I said yes. He laid his hand on the top of my head, and the Spirit of God went right through me; it was so powerful that I could hardly stand up. I started speaking in tongues.

Later, after I got myself together and returned to my seat, he asked me if I had a testimony. So, I stood up and said, "I thank God for filling me with the precious Holy Ghost!" The brothers and sisters started praising God. What a glorious night! After that, time went on.

Then the Pastor of the church changed and there were many disturbances with him, Evang. Jennings and others. Many people left. It was sad. So, I decided to leave also. I knew God would lead me to another place and he did.

Later, I got a message that a church meeting would be at 1335 W. Jerome Street, right around the corner from where I was hired. I was very thankful. Although it was in a basement, I did not care. I was so thankful to God.

Evang. Jennings became the Pastor and I knew he was a true man of God. He began to put all things in order. It was 15 of us. I was so happy when I think about it now, I could cry knowing how great and marvelous God is.

We witnessed when Pastor Jennings was on a 12-day fast. He came down to the basement and preached to us. The brothers brought him down. He was weak but this was amazing to see. As time went on, more people came. We knew we had to find another place.

Mother Jennings got the sisters together. We worked and sold dinners every week and we had a flea market in the basement of my home on Broad Street. While we were in the basement, Pastor told us of the vision, and we knew we would be getting another place.

After five years, we were able to find a place on Briar Road, from there, Frankford Avenue. Oh, I thank and praise God that I was in the vision with everyone else.

I remember he told us about everyone coming and I said to myself, "He is not going to remember me." I was wrong----

he never forgot me."

Learning Has No Age Limit

Sis. Tatiana Smith

Is it too late to start college as an adult?

Some may think it is too late but as for Brother Seth Sexton, restarting school in his 30's was perfect timing.

Returning to college as an adult may feel cumbersome, but if you have a goal and stay focused, it is possible to obtain your degree later in life.

Growing up, Brother Sexton felt like he had no purpose or direction in his life. He would often produce different business ideas but had no clue where to start. As the years went by, he became determined to figure out how to start a business.

Finally, he concluded going back to school would be beneficial as it would help him gain the knowledge he needed to start a business.

Although college can be overwhelming, Brother Sexton did not allow the stress of college to deter him from missing the opportunity to learn. The excitement of learning new information and gaining the skills needed to start a business aided in his pursuit of obtaining his degree in Business Leadership.

Like many, Brother Sexton works full-time and goes to school part-time. Despite the school's exhausting workload, Sexton completes homework assignments with a sense of vigor and motivation, knowing his hard work is not in vain and will lead to a successful future.

However, he feels his current job is in vain with the constant stress and repetitious tasks, not to mention he is often added to the overtime list, making it hard to get ahead when work consumes most of his life.

College allows Brother Sexton to further develop and position himself in a promising direction. He will be qualified to earn the salary needed for better stability.

Brother Sexton's educational aspirations are not without its challenges.

"As a man on my own trying to live a holy life, I have a busy work week and I have my everyday home essentials like grocery shopping and cooking," he said. "The hardest thing I'm facing is time."

Time management and balancing life can be difficult, but Brother Sexton knows he cannot go without accrediting God for his success.

Without God, returning to school would not have been possible for Brother Sexton. Life's everyday burdens can be heavy, but Brother Sexton has faith that God will help him find balance.

Though many obstacles and stressors arise while attending college, it is important to remain focused and keep your goals in mind.

The best advice I would give to other students is enjoy learning, enjoy being able to go to class while being attentive to what is being taught to you," Brother Sexton said.

"The fact that you are able to go to school and reap the benefits, you should feel good about what you're doing."

Often, people measure success with money; however, Brother Sexton measures success by being able to put God first and eventually obtain his degree.

GOD
First

At a point in his life, he did not find school enjoyable. His first time attending college was unsuccessful, as he was placed on academic probation and eventually dropped out.

However, Brother Sexton returned to school and received his first passing semester. He is blessed to have this opportunity to work toward his future.

With time, growth and maturity, Brother Sexton continues to enjoy learning.

It's never too late to learn. If you have an opportunity, take advantage of it and do not take it for granted. Learning is for every age and stage of your life—enjoy the process!

Change Has Come: The Truth of God in Dubai

Sis. Peggy Beckford
TOG Times Staff Writer
London, England Temple

Springing up from the vast barrenness of the Arabian desert, Dubai stands out as a remarkable feat of human ingenuity, cutting-edge engineering, and architectural splendor. The envy of many in the Western world, the infamous United Arab Emirates city-state stands apart from other cities in the West. Its unique blend of economic opportunities, cultural diversity, safety, innovation, and lifestyle benefits gives it that edge.

During a recent visit, I stood overlooking the luxury boats of the wealthy docked on Dubai's marine front. Flanked on one side by beautifully manicured lawns, I admired the aesthetics yet found it hard to believe that Dubai, with its distinct, vertical skyline was once a desert region with a small population and economy before the 20th-century oil boom.

Historically, religious restrictions permitted only Catholicism, but as the United Arab Emirates continues to welcome more expatriates to opportunities in its city-states, change is on the horizon. In the opulence of this predominately Islamic city, the Truth of God has burst through like an oil surge, offering an alternative wealth: a chance at eternity with our Lord and Savior Jesus Christ.

Consequently, the dedication of local brothers, who were exposed to Pastor Jennings' broadcasts on YouTube in 2018, has led to establishment of a First Church of Our Lord Jesus Christ temple in Dubai. The brothers initially convened in homes until they reached out to the First Church headquarters in Philadelphia, Pennsylvania, United States. They informed the Church authorities of their gathering, and Bishop Elvis Sibaly, the appointed lead for the First Church African region, was assigned to oversee the assembly of the saints in Dubai.

When I visited the Dubai temple in September 2024, I met with local saints and witnessed the Word of God preached by Brother Kristoffer Delatorre, in compliance with the bible-based teachings of Apostle Gino Jennings. After church service, I chatted with Brother Delatorre and was keen to ask a customary question among saints: How did you first come into contact with the Truth of God message?

Delatorre was first exposed to the message on YouTube and was stunned by the clarity and biblical doctrine, especially the prohibition against women preachers. This resonated with him, particularly because he served as a teacher under a woman preacher. When he could no longer ignore Pastor Jennings' voice, he confronted his former church leaders, presenting scriptural evidence gathered from Pastor Jennings' messages. They outrightly rejected the arguments and lambasted him for daring to question them.

In due time, Delatorre adhered to Pastor Jennings' scriptural advice: 'Come out from among them'. To be scripturally compliant, he traveled to one of the FCOOLJC Indian Temples and was

correctly baptized in the name of Jesus Christ. On his return, he tarried fervently for the Holy Ghost and after three months, by God's grace, he received the precious gift after a period of fasting and prayer.

Eventually, Delatorre's wife and others from his previous church left and joined him, and they all started meeting in a brother's home. They secured a suitable meeting hall where they regularly conduct weekly Sunday services. Also, Bishop Sibaly, faithfully travels from the island of Mauritius and attends the Dubai Temple each month.

Today, a transient but vibrant group of believers, drawn from many nations, including the Phillippines, regions in the Indian subcontinent, and Africa, remain faithful. The group has also had its challenges. But they are determined to continue in the Apostles' Doctrine.

I ended my time in Dubai in a discussion with Delatorre and he was keen to share what keeps him motivated and confident that the temple will increase. He had experienced God's miraculous power: the doctors had said his wife would never have a child, but through faith in God, they now have a beautiful, two-year-old daughter.

I am also confident in God's faithfulness and that the Dubai temple will continue to grow.

For more information on the temple location and service times, visit the FCOOLJC church website.

About the Author

Brother Keyjoy Collins is 12 and attends Irwin High School in Montego Bay, Jamaica. The poem, "Holiness" was originally a song written by his mother (Kaysian) and turned into a poem by our dear brother. When the Truth of God Times asked him how he prepared for the 2024 Jamaica Convocation, he said that his mother made him practice every day to be perfect, and then the Lord helped him. According to him, he was not nervous about delivering the poem as an offering unto the Lord during the convocation because he blocked out everyone. Please keep our brother in your prayers.
